## **Winter Spirit:**

3/19/22

This past weekend PAVC had the honor to represent New Hampshire in all girl D1 at the New England cheerleading championships held at Worcester State University. Despite a very long wait from warm ups to performance the Astros put up a strong 3 minutes. The team builds (stunts, baskets, and pyramid) were the strongest technique executed by the team the entire season according to the coaching staff. The comments from the judges at New Englands are truly something to look forward to. They commend our athletes on the speed of the routine, the execution start to finish and the performance value put forth. It is truly amazing to be recognized and respected by officials from all the New England states. The team performance was solid and impressive which helped to capture the programs 13th New England and Grand Championship title.

## **Wrestling:**

## **Athletes of the Week:**

Haleigh Bowler

Winter Spirit

Junior

Bowler upped her game for us at New England's by upgrading an additional tumbling pass to beef up our overall impression. She has the most demanding routine for PAVC and delivered it this past weekend with grit and gumption to help the team capture our 13th NE and Grand Championship title. She is point flyer for PAVC and never leaves the front row in any segment over the course of 3 minutes to help carry the scoresheet. "Piper" has displayed tremendous heart and leadership and shows up for her team day in and day out. She truly bleeds PAVC pride.
